# SMART MONITORING SYSTEM
S4M

Your complete system —
monitored and logged in a single software

S4M FEATURES

REMOTE ACCESS
Client needs only a web browser

REPORT FUNCTION
Easy report generation

EASY INSTALLATION
Wizard guided installation

UNDER CONTROL
Alarm definition at a click

DATA BASE
Data logging on server

AUTO DETECT
System integration within seconds

S4M is the complete monitoring solution for your energy management. It delivers real-time analytics of installations and can identify potential issues before they happen. S4M intelligently gathers, compares and analyses data to help compressed air users increase maintenance and service efficiency, make energy savings easy, quick and rewarding.

By server installation, and using the latest web technology, S4M is designed to provide cloud based service or local server installation, which allows user to monitor and collect granular, real-time energy consumption data of individual compressed air system anywhere at any time.
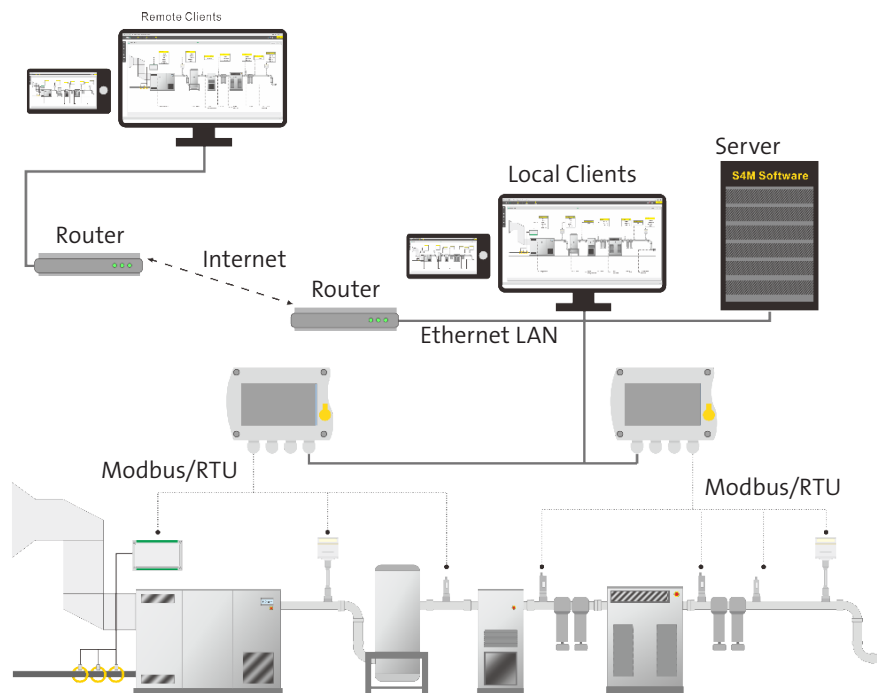

S4M BENEFITS

- Easy to use monitoring solution
- Simple installation with installation wizard
- Browser / Server Architecture. Client is independent from any operation system.
- Alarm monitoring and indications on screen, relay, e-mail and SMS
- Graphical data analysis
- Multiple languages
- Third-party support
- Scalable to fit your application

S4M used for low power wide-area network solution

S4M-your plant under control

S4M Cloud Installation

S4M helps you to keep your plant under your control. Gathering the date of all installed sensors and measurement system. Combining them into a single software solution which enables you to take back the control of your system.
